

Forms by Symphony

Paperwise Symphony
Forms Solution

Built with 30 years of experience, engineered for ease,
and designed with your business in mind.

OUR SOLUTION

Paperwise Symphony was designed to bring simplicity and order into areas of your business that have traditionally been complex. Forms and links make it easy to collaborate with people inside and outside of your four walls – surveys, registrations, job applications, health information, and more. We have many templates to choose from as well as the ability to customize a form for you. Instead of asking your client to spend 15-30 minutes filling out paper forms in your waiting room, you can share a link to online forms that they can fill out in their own time.

**Collect
Data**

**Save client
time**

**Improve
worker
productivity**
