paperwise

Streamline Data Collection with Forms by Paperwise

Paperwise Symphony was designed to bring simplicity and order into areas of your business that have traditionally been complex. Forms and links make it easy to collaborate with your employees and customers. We have created a variety of forms for you to choose from and also have the capability to build custom forms as well.

OUR FEATURES

- **Workflow Drag and Drop:** Easily create rules, exceptions, and approval criteria based on data collected in your forms with little to no code.

- **Management Engine:** Streamline your repetitive tasks, increasing efficiency and decreasing rates of error and lost items for your everyday tasks.

- **Workflow Form Designer:** Create your own custom simple or complex forms for customers and employees.

- **Shared Link Manager:** Easily dispense and manage shared packets, forms, and other documents while having complete control of who views, edits or shares each document.

- **Anonymous Form Links:** Securely collect data from clients and employees using our Anonymous Form, simply collecting data from anyone at any time.

OUR BENEFITS

- Collect data easily and accurately
- Improve worker productivity
- Save time for your customers and team
- Customization of forms for any industry or department
